

FORD PRODUCING 4,000 CARS A DAY

Present Production Greater Than For Same Period Last Year.

Ford is building cars at full speed. And, according to official statement from the factory at Detroit, the fact that a new high level of production has been reached by the first of May the figures representing daily production were in the neighborhood of 4,000 a day, so that the output of the Ford Canadian plant and trucks, not including assembling plants. The output mounted daily. Made in one day so far this year. Since the month of working days present indications point to a new high level of production for the year 1921.

A comparison of Ford production figures for 1920 and 1921 discloses the fact that for April 1921 the output was 31,514 than for the corresponding month of a year ago. The output for May 1921 will probably exceed that of 1920 by between fifteen and twenty thousand cars and trucks.

Approximately 13,000 men are at work in the plant of the Ford Motor Company. The factory is open on full time, six days a week and three shifts a day. "We were never in better condition than we are now," said Henry Ford recently.

A man cultivating corn WALKS 21 1/2 miles a day if he plows four acres and makes two trips to the row. He rides only 11 1-8 miles to plow four acres with an

which does the trick at one trip. He has to turn around at the end of 560 times when he walks and plows, when he rides he only turns 20 times.

Allowing 1/2 of a minute for each turn he saves when riding we have two and one-third hours' time each day he plows instead of turns.

Let us show you an Oliver Cultivator. It's economical.

Are You in DANGER?

If you are in the habit of keeping money or valuables on your person or about your house, you are certainly in danger.

You are in danger not only of being robbed, but of having some worse thing befall you. There are, sad to say, those who would not hesitate to commit murder, if necessary, to expedite robbery that they have planned.

You will be safer and your money certainly will, if it is deposited in bank. We not only offer you 100% safety but will add 4 per cent interest to your balance each year.

As to your valuables, you can have a safe deposit box in our vault in which they, too, will be really safe.

There is a state fund now available for vocational work and the districts that apply for money for this work will have to pay one third of the teachers salary the state paying two-thirds. Now don't confuse the two terms: vocational work and vocational work for they are distinct and separate.

All the teachers in the High School here have done good work and can retain their positions another year if they so desire. I dare say the graduates of this school this year have learned more about Civil Government than any graduate of former years.

Among the visiting attorneys at court this week we mention

E. W. Hubbard and J. B. Boatwright, of Buckingham, and F. C. Moon and J. T. Tompson.

We are much crowded for room this week, but ask our correspondents to keep up the news.
